## SUBURBAN DAY.

Track, Weather and Horses in Perfect Order for the Great Race.

**Forty Thousand Spectators Expected** to Witness the Struggle.

Tenny Is the Favorite, but Many Back Tea Tray and Riley.

[SPECIAL TO THE EVENING WORLD.] SHEEPSHEAD BAY RACE THACK, June 16.-

The course over which the great Suburban afternoon is more beautiful than ever. The splendid stretches of green lawn look fresh and cool, and the forests surrounding the don the betting ring and grand stand and rest under the folinge. The flower-beds are as well kept as ever, and beautiful exotics of Frui fragrance to the ate.

The new grand stand, sc-called, is imposing and massive. It cannot be called strictly new, for the only change is the addition of a are as follows: troof upon which seats were placed, affording a splendid view of the track at every point, and of the surrounding country as well.

This race will truly be the turf event of the Year. The finest thoroughbreds ir try are named to go, and when the little red. Hag flashes the starting signal, probably 80,-000 eyes on the grand stand and the lawns will follow the struggles of these magnificent animais.

The day couldn't be more perfect, save that It is a trifle too warm. The sky is clear and devoid of clouds and a gentle breeze scurries through the grand stand in a fashion most grateful to the perspiring speciator. One expects discomforts on Suburban day

In many respects It, can be likened to Derby tay in England. People will visit the race track this afternoon who never go on any Other occasion. Business will be to a great extent suspended, so far as the heads of firms go, for all will want to see the great race of the year.

There will in all probability be nearly \$0,000 people present to witness this year's Suburban, and from all present indications no one will regret it.

Every one at the track this morning seemed to take it for granted that Col. D. T. Pulsifer would win with Tenny.

The swayback seems to so far outclass the

others that it seems like a foregone conclu-Sion that he will win.

" Why," said a shrewd turfman this morning, "how can you figure it any other way ? In the Brooklyn Handicap he beat all these horses. Those that were beaten then have since won stakes, and have been penalized with several more pounds. Why should they now have any more chance of beating Tenny than they had in the Brooklyn Handicap ?" This seemed a logical way of looking at the

but similarly. Tenny is in the best possible condition. His trainer, Donovan, said this morning: " If he is beaten there can be no excuse for him." There are shrewd men at the track, however, who figure that Tea Tray, the pride of

race, and nearly every one seemed to figure it

Brighton, will give Tenny the race of his life If he does not beat him. Tea Tray has not raced since the Brooklyn Handicap, and therefore has incurred no weight penalties. He is in beautiful form, and it is reported here this morning that

Snapper Garrison will pilot him. There is another division of turfmen who favor Riley. They saw him carry 130 pounds yesterday and gallop the distance in 2.10. This is a trial worth remembering, and only

n few saw him do it. Riley is in great fettle, and it is reported that Tom Kiley is coming on from the West to ride him. It was Tom Kiley who rode

Terra Cotta the year that Elkwood just beat Supt. Clark is confident that Tenny will win. He has gotten the track in perfect

shape, and he says he is sure that the race will be run in 2.07 or better. Matt Allen is advising his friends to place small bets on Demuth, whom he save has a great chance. He thinks Bergen will ride him, and he tells his triends to remember the

game race that Demuth ran last year, and especially the race in which Firenze only beat him by a head. Major Domo is figured out as having a chance. His owner says that he will run the first mile in 1.40 or better, and will come

very near killing off the rest of the field. It is reported that Raceland, Cassius and English Lady will be withdrawn. Michael Dwyer thinks Banquet is at present better than Raceland, and will rely on the former. Hamilton will be in the saddle. Cassius will

not go, because Diablo has shown himself to be the better of the Campbell pair. Taral will pilot Diablo. Green Morris argrues that Judge Morrow is

"in it," and he believes that his colt never liked the up and down hill course at Morris

This accounts in a measure for the poor performances of the horse at the recent meeting at Westchester.

Fire in a Cincinnati Hospital.

The chaperone was the first to notice the said, save the single special sknown of them. Isaac Lewis, with Taylor up, looks dangerous at 05 pounds, with Taylor up, looks dangerous at 05 pounds, other traders declare than 1 to roof in the northwess the single special action of the bulleting and the same of a big race like the Suburbana, and matter how greatly they canter they can they ca
